PROFESSIONAL SUMMARY

Multitalented & Conversion-driven **Senior Product Designer** with 5+ years of experience transforming complex business challenges into intuitive, high-converting digital ecosystems (SaaS, EdTech, FinTech, & E-Commerce). Proven track record of scaling products from 0-to-1, optimizing user flows, and delivering measurable commercial outcomes - including a **89% boost in platform performance/usability** and a **77% increase in user satisfaction**.

Uniquely equipped with full-stack technical fluency in **Figma, HTML/CSS, JavaScript, React, SQL, and Power BI**. This rare hybrid skillset allows you to bridge the gap between product strategy, design systems, and engineering execution, cutting handoff friction to zero and empowering you to code production-ready interfaces. Recognized for bridging user advocacy with business profitability, stakeholder alignment, and data-informed decision-making.

CORE COMPETENCIES

- **Product Design & Strategy:** End-to-End Product Lifecycle, 0-to-1 Product Design, Product Discovery, User Research, Journey Mapping, Information Architecture, Interaction Design, Wireframing, High-Fidelity Prototyping, Usability Testing, UX Audits.
- **Product Leadership & Governance:** PRDs (Product Requirements Documents), Design Documentation, Feature Prioritization, Workflow Optimization, Cross-Functional Leadership, Agile/Scrum Methodologies.
- **Design Systems:** Advanced Figma, Component Libraries, Design Tokens, Design System Governance, UI/UX Consistency, Design-to-Development Handoff.
- **Technical & Data Acumen:** Frontend Development (HTML5, CSS3, JavaScript, React, Git/GitHub), Data Analytics & Visualization (SQL, Power BI, Microsoft Excel).

PROFESSIONAL EXPERIENCE

PRODUCT DESIGNER

Morgen Green Limited — Lagos, Nigeria (Hybrid) | *October 2025 – Present*

- Spearhead end-to-end product architecture, UX strategy and UI Design for enterprise, SaaS and EdTech platforms, managing high-complexity administrative dashboards, analytics suites, and automated e-marking workflows.

- Translate ambiguous executive objectives and strict engineering constraints into frictionless user journeys, wireframes, and scalable design solutions.
- Author comprehensive **Product Requirements Documents (PRDs)** and technical specifications that eliminated engineering ambiguity and accelerated cross-functional sprint delivery by 25%.
- Architect, scale, and govern robust Figma design systems and component libraries, standardizing UI patterns and maintaining visual integrity across multiple development squads.
- Partner hand-in-hand with software engineers throughout the development lifecycle to resolve technical blockers, ensure design fidelity, and optimize frontend rendering performance.

PRODUCT DESIGNER

Ajiroba Technologies Limited — Lagos, Nigeria (Remote) | *November 2023 – September 2025*

- Owned the complete product design lifecycle for a high-traffic B2C e-commerce platform across responsive web and native mobile environments.
- Spearheaded deep UX audits and heuristic evaluations that successfully **improved overall platform performance, interaction speed, and usability by 89%**.
- Overhauled legacy checkout flows and navigation hierarchies, drastically lowering drop-off rates and streamlining the user conversion funnel.
- Built and maintained a comprehensive Figma design system from scratch, cutting redundant UI design time and ensuring absolute design consistency.
- Synthesized quantitative user metrics (drop-offs, session lengths) with qualitative user feedback to drive iterative feature improvements.

PRODUCT DESIGNER

Creatifff — Lagos, Nigeria (Remote) | *March 2022 – October 2023*

- Directed the user experience strategy for a mobile-first fashion e-commerce application from initial market discovery to public deployment.
- Conducted user interviews, behavioral mapping, and competitive analyses to isolate usability roadblocks and refine product positioning.
- Designed complex interactive prototypes and high-fidelity interfaces in Figma, validating hypotheses rapidly through continuous user testing.
- Redesigned user onboarding and payment funnels, directly contributing to a **15% increase in user satisfaction scores (CSAT)** and higher retention.
- Collaborated closely with cross-functional product and marketing teams to align interface design with customer acquisition goals.

FEATURED TECHNICAL & PRODUCT PROJECTS

- **LEDGER STUDIO (Invoice Generator) | Product Design & Frontend Dev**

    - Designed and coded a high-speed, financial invoice generation tool optimized for instantaneous client-side operations using Supabase storage as backend..
- **ANNYSHUB (Retail Platform) | Product Design & Information Architecture**
    - Architected distinct user experiences and bespoke workflows for a dual-sided retail ecosystem, serving separate customer-facing retail showrooms and back-office administrative portals.
- **RETAIL & ADMISSIONS ANALYTICS | Data Analytics & Visualization**
    - Modeled complex operational datasets, wrote optimized SQL queries, and engineered interactive Power BI business dashboards to drive data-informed executive decisions.
- **PERSONAL DESIGN PORTFOLIO | UI/UX Design & Frontend Engineering**
    - Designed, built, and deployed a responsive personal portfolio showcasing case studies and design systems utilizing modern web frameworks.

EDUCATION & CREDENTIALS

- **B.Sc. Civil Engineering** | Obafemi Awolowo University, Ile-Ife | *Second Class Upper (CGPA: 4.09/5.0)* | 2019
- **OND, Civil Engineering** | Moshood Abiola Polytechnic | *Upper Credit (CGPA: 3.28/4.0)* | 2012
